Applications (*)

Cement
Ceramic
Chemistry
Dust collection
Energy
Incinerator
Railway tunnel
Road tunnel
On shipboard system

Underground railway
Oil & gas
Paper mill
Light alloy production
GLass production
Steel production
Underground railway station
Residence ventilation
Industrial ventilation

Arrangement ()**

1 single inlet fan for belt drive
4 single inlet fan for direct drive
6 double inlet fan for belt drive
7 single inlet fan for coupling drive
8 single inlet fan for coupling drive
9 single inlet fan for belt drive
12 single inlet fan for belt drive
17 double inlet fan for coupling drive
18 double inlet fan for belt drive
