Applications (*)

Cement	Underground railway
Ceramic	Oil & gas
Chemistry	Paper mill
Dust collection	Light alloy production
Energy	Glass production
Incinerator	Steel production
Railway tunnel	Underground railway station
Road tunnel	Residence ventilation
On shipboard system	Industrial ventilation

Arrangement ()**

1	single inlet fan for belt drive
4	single inlet fan for direct drive
6	double inlet fan for belt drive
7	single inlet fan for coupling drive
8	single inlet fan for coupling drive
9	single inlet fan for belt drive
12	single inlet fan for belt drive
17	double inlet fan for coupling drive
18	double inlet fan for belt drive
